

**Race, Gender and Ethnicity Analysis  
FL-501 - FY 2022 HUD CoC Program Competition - Applicant / Subrecipient (if applicable)**

Purpose: Homeless Service Providers and funded projects need a diverse staff at all organizational and project levels to ensure that compassionate staff are able to provide quality services necessary to help individuals and households exit homelessness to permanent housing. HUD has continued their focus on helping ensure funded organizations and projects are operating in an equitable manner when compared to the demographics of the individuals and households they are servicing. This tool provides an analysis for the organization's decision-making levels as well as the day-to-day operations of the funded project.

Racial, Ethnicity and Gender Equity Analysis - Having a racially, ethnicity, and gender diverse staff is paramount to ensuring organizations are working to meet the needs of all clients and in a proportion that is equitable to the client demographics being assisted by the organization.

Instructions: Using the table below, please indicate the number of employees that meet the gender, ethnicity and racial categories by the staff category. The first 3 staff categories are for the entire organization; the last 3 staff categories for specific to the funded project. DO NOT PROVIDE NAMES AND/OR TITLES OF STAFF.

	Gender	Race and Ethnicity									
		Hispanic/Latinx			Non-Hispanic/Non-Latinx						
		Asian	AI/AN	Black	NH/PI	White	Asian	AI/AN	Black	NH/PI	White
Executive Management	Cis men										
	Cis women										
	Trans men										
	Trans women										
	Non-binary										
Senior Management	Questioning										
	Cis men										
	Cis women										
	Trans men										
	Trans women										
Finance	Non-binary

Program Supervisors	Trans men										
	Trans women										
	Non-binary										
	Questioning										
	Cis men										
Case Managers	Cis women										
	Trans men										
	Trans women										
	Non-binary										
	Questioning										

**Gender Definitions:**

Cis = a person whose gender identity aligns with those typically associated with the sex assigned to them at birth.  
 Trans = a person who experience or express their gender in a way that does not necessarily align with what they were assigned at birth.  
 Non-Binary = a person who does not identify exclusively as a man or a woman.  
 Questioning = people who are in the process of exploring their sexual orientation or gender identity.

Native Hawaiian and Other Pacific Islander alone, percent (a)	🚩 0.1%
Two or More Races, percent	🚩 3.0%
Hispanic or Latino, percent (b)	🚩 30.3%
White alone, not Hispanic or Latino, percent	🚩 46.5%

[About datasets used in this table](#)

### Value Notes

 Estimates are not comparable to other geographic levels due to methodology differences that may exist between different data sources.

Some estimates presented here come from sample data, and thus have sampling errors that may render some apparent differences between geographies statistically indistinguishable. Click the Quick Info  icon to the left of each row in TABLE view to learn about sampling error.

The vintage year (e.g., V2021) refers to the final year of the series (2020 thru 2021). Different vintage years of estimates are not comparable.

Users should exercise caution when comparing 2016-2020 ACS 5-year estimates to other ACS estimates. For more information, please visit the [2020 5-year ACS Comparison Guidance](#) page.

### Fact Notes

- (a) Includes persons reporting only one race
- (c) Economic Census - Puerto Rico data are not comparable to U.S. Economic Census data
- (b) Hispanics may be of any race, so also are included in applicable race categories

### Value Flags

- Either no or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest or upper interval of an open ended distribution.
- F Fewer than 25 firms
- D Suppressed to avoid disclosure of confidential information
- N Data for this geographic area cannot be displayed because the number of sample cases is too small.
- FN Footnote on this item in place of data
- X Not applicable
- S Suppressed; does not meet publication standards
- NA Not available
- Z Value greater than zero but less than half unit of measure shown

QuickFacts data are derived from: Population Estimates, American Community Survey, Census of Population and Housing, Current Population Survey, Small Area Health Insurance Estimates, Small Area Income and Poverty Estimates, State and County Housing Unit Estimates, County Business Patterns, Nonemployer Statistics, Economic Census, Survey of Business Owners, Building Permits.
